PROFILE

- Software Engineering student at Haramaya University and Junior Full-Stack Web Developer
- Motivated problem-solver focused on real-world software solutions

SKILLS

Strong expertise in Full stack web development

- JavaScript
- React
- Express.js
- MongoDB, AWS, and DynamoDB

LANGUAGES

- **English** - Conversational
- **Amharic** - Native
- **Afan Oromo** - Fluent
- **Arabic -** Fluent

CERTIFICATES

- INSA Summer cump

EDUCATION

BSc. Software Engineering student
Haramaya University
06/2022 – 09/2027 | Haramaya/Ethiopia

- Currently pursuing a BSc in Software Engineering
- Completed core coursework in web development, databases, and software design
- Developed multiple academic and personal projects using modern web technologies.
- GPA - 3.043

PROJECTS

Different projects like:
exiting projects

- HUMSJ- Academic platform (Web-app)
- HUMSJ- Academic platform (telegram-bot)
- Cloud-Bite (Cloud based restaurant ordering. and so many.

INTERESTS

learning new technologies like:-

- Cloud technologies
- Exploring AWS services and scalable system design
- Building personal software projects and learning new frameworks
- Team-based projects and collaborative development
- Problem solving

PROFESSIONAL EXPERIENCE

- Developed a **multi-tenant SaaS platform** supporting multiple cafeterias and admin roles
- Implemented **role-based access control** (Super Admin / Admin) and secure authentication
- Integrated **DynamoDB** for scalable data storage and **AWS services** for deployment
- Planned and executed system architecture, API design, and frontend integration
- Improved system maintainability by structuring reusable components and services

COURSES

Full-Stack Web Development
INSA

- Developed full-stack applications using React, Node.js, Express, and MongoDB
- Implemented RESTful APIs and user authentication
- Applied best practices in clean code and version control
